Foundation Celebrates 30 Years!

2021 marked 30 years that the Blue Ridge HealthCare Foundation has been serving our community by supporting our local healthcare system. Originally founded as the Grace HealthCare Foundation, the foundation continues to provide funding for hospital-based projects, programs, and patient needs throughout UNC Health Blue Ridge.

The foundation celebrated with a week of festive activities, including an open house and ribbon cutting at the new office location in downtown Morganton. In March of 2021, the foundation moved into the historic nurses living quarters, formerly known as the Elms, built in 1938.

The foundation also celebrated this monumental occasion by creating the 30th Anniversary Pearl Club. The traditional gift for 30 years is pearl – something extra special takes time to grow. Interested in helping continue the celebration? Learn more about the Pearl Club [here](#).
